Date: $\qquad$
Instructions: How often have you been bothered by each of the following symptoms during the past two weeks? For each symptom put an " $X$ " in the box beneath the answer that best describes how you have been feeling.

|  | (0) <br> Not At All | (1) <br> Several Days | (2) <br> More Than <br> Half the <br> Days | (3) <br> Nearly <br> Every Day |
| :---: | :---: | :---: | :---: | :---: |
| 1. Little interest or pleasure in doing things? | 0 | 1 | 2 | 3 |
| 2. Feeling down, depressed, irritable, or hopeless? | 0 | 1 | 2 | 3 |
| 3. Trouble falling asleep, staying asleep, or sleeping too much? | 0 | 1 | 2 | 3 |
| 4. Feeling tired, or having little energy? | 0 | 1 | 2 | 3 |
| 5. Poor appetite, weight loss, or overeating? | 0 | 1 | 2 | 3 |
| 6. Feeling bad about yourself - or feeling that you are a failure, or that you have let yourself or your family down? | 0 | 1 | 2 | 3 |
| 7. Trouble concentrating on things like school work, reading, or watching TV? | 0 | 1 | 2 | 3 |
| 8. Moving or speaking so slowly that other people could have noticed? <br> Or the opposite - being so fidgety or restless that you were moving around a lot more than usual? | 0 | 1 | 2 | 3 |
| 9. Thoughts that you would be better off dead, or of hurting yourself in some way? | 0 | 1 | 2 | 3 |

If you are experiencing any of the problems on this form, how difficult have these problems made it for you to do your work, take care of things at home or get along with other people?
[ ] Not difficult at all
[ ] Somewhat difficult
[ ] Very difficult
[ ] Extremely difficult

In the past year have you felt depressed or sad most days, even if you felt okay sometimes?
[ ] Yes [ ] No
Has there been a time in the past month when you have had serious thoughts about ending your life?
[ ] Yes [ ] No
Have you EVER, in your WHOLE LIFE, tried to kill yourself or made a suicide attempt?
[ ] Yes [ ] No
If you have had thoughts that you would be better off dead or of hurting yourself in some way, please discuss this with your Health Care Clinician, go to a hospital emergency room or call 911

## Scoring the PHQ-9 Modified for Teens

Scoring the PHQ-9 modified for teens is easy but involves thinking about several different aspects of depression.

To use the PHQ-9 as a diagnostic aid for major depressive disorder:
$\square$ Questions 1 and/or 2 need to be endorsed as a "2" or "3."
$\square$ Need five or more positive symptoms (positive is defined by a " 2 " or " 3 " in questions 1-8 and by a " 1 ", " 2 ", or " 3 " in question 9 ).
$\square$ The functional impairment question (How difficult....) needs to be rated at least as "somewhat difficult."

To use the PHQ-9 to screen for all types of depression or other mental illness:
All positive answers (positive is defined by a " 2 " or " 3 " in questions 1-8 and by a " 1 ", " 2 ", or " 3 " in question 9 ) should be followed up by interview. A total PHQ-9 score $\geq 10$ (see below for instructions on how to obtain a total score) has a good sensitivity and specificity for MDD.

To use the PHQ-9 to aid in the diagnosis of dysthymia:
The dysthymia question (In the past year...) should be endorsed as "yes."
To use the PHQ-9 to screen for suicide risk:
All positive answers to question 9 as well as the two additional suicide items MUST be followed up by a clinical interview.

To use the PHQ-9 to obtain a total score and assess depressive severity:
$\square$ Add up the numbers endorsed for questions 1-9 and obtain a total score.
$\square$ See table below:
Total Score Depression Severity

0-4
5-9 Mild depression
10-14 Moderate depression

20-27

15-19 Moderately severe depression
No or minimal depression

Severe depression
